

# PSIcontrol – NA Training for Operators (SKUHEW)

This training is designed for network control system staff and experienced users. It covers the PSIcontrol functions for network calculations.

After completing the training, the participants will be able to manage the network with the NA functionality.

## Contents:

- Introduction to the NA calculation procedures
- Network modeling and basic calculations
- Application in the network control system
- Simulate and optimize network behavior
- State estimation
- Load flow simulation
- Short circuit calculation
- Contingency analysis

Duration:	0.5 days
Training location:	Aschaffenburg, Boschweg 6 or online
Language:	English
Target group:	Operators, system administrators, trainers, testers
Prerequisite:	PSIcontrol – SCADA (SKUOPR)
Training materials:	Presentation slides
Min. number of participants:	4
Registration deadline:	6 weeks before start of the training
Prices, dates and registration:	<a href="https://www.psienergy.de/en/services/training/skuhew-psicontrol-na-trainig/">https://www.psienergy.de/en/services/training/skuhew-psicontrol-na-trainig/</a>
